Claims 31-38 are presented for examination.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 31-34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 31-35 are indefinite in failing to set forth the definition for rings A, B, C, D and also failing to define R2-R6 substituents. Such claims are indefinite in defining "T", which is not clear either tetra or tri intended. The substituents on the phenyl groups are not also attached to the ring.

Claims 35-38 at present time are considered to be allowable.
